

# Lakes Region Agricultural Collaborative & GOT LUNCH! LACONIA

*Presents:*

## **Community Supported Agriculture (CSA)**

Our partnership will provide GOT LUNCH! Laconia families with fresh vegetables for the summer. Supporting our farmers and our families is a healthy collaboration!

**By participating in “Eat Out For GOT LUNCH! Laconia Week” partner restaurants make a donation to support the fresh vegetable portion of the Got Lunch program.**

Lakes Region Growers Alliance is an organization of local farms that operate collectively to provide locally grown and raised products to the Lakes Region communities. The fresh vegetables will be provided for this program by these great local producers! Please contact them today for fresh, local and sustainably raised products or to *sign up for CSA for your family!*

Beans & Greens Farm is a family farm in Gilford, NH operating since 1989 raising flowers, mixed vegetables, beef, chicken, pork & our own fresh baked pies and breads using sustainable growing methods. We offer quality food choices and a unique farm experience offering events in our pavilion, seasonal festivals, and now host weddings. Our seasonal produce offerings are available at our farm store and offered through our CSA programs.

Beans & Greens Farm 245 Intervale Rd. Gilford, NH (603)293-2853

Red Manse Farm grows a wide range of certified organic vegetables and two acres of fruit trees, as well as shiitake mushrooms and maple syrup. Established in 2005 on a historic farm dating to the 1760's, we have supplied our produce to retailers throughout the southern half of the state, but today market the bulk of our crops via a CSA (Community Supported Agriculture) and at the farm.

Red Manse Farm, 5 Pittsfield Road, Loudon Center, NH, (603)435-9943, [redmansefarm.com](http://redmansefarm.com)

We are a diverse farming venture that began in 2007. We incorporate many naturally based nutrients, trace minerals and inoculants in growing our produce, resulting in naturally sweet vegetables and fruits with minerals that our body requires and is lacking today. This is beyond organic growing – it's one step above. We also offer free-range eggs and maple syrup.

Still Seeking Farm, LLC 317 Loon Pond Rd. Gilmanton, NH (603)207-5326
